SALIVA RETEST - Please use black ink.

Name _____ Date _____

Collect a saliva sample. Write your name, the date, and your phone number on the small manila envelope. Remove your watch and make sure your cell phone is at least a few inches away from you. Make sure that you do not have black clothing covering your navel. (That irritates the nervous system.) Take off glasses that have a metal frame across the front. Take out the small white slip put it in your mouth, and saturate it (get it completely wet) with saliva. **Do not let the slip contact cosmetics such as lipstick.** Replace it in the envelope and allow it to dry. **DO NOT** seal the envelope.

If you do not have a sample envelope: Take a sheet of white copy or printer paper and draw a **circle** about 2 inches in diameter on the paper. Lick the areas inside the circle and get it wet with saliva. Allow it to dry. Write your name, phone number and date on the sheet.

Rate each item 0-10, with 0 being that you did not do the item at all and 10 to indicate that you did the item since your last test completely as recommended. If you do not have the equipment or recommendation or product listed, please put N/A.

Supplements such as vitamins and minerals and Cholestepure _____

Herbal tinctures or extracts _____

Activations _____ Rife frequencies _____

Foot bath _____ Foot detox pads _____

Average water intake per day _____ Avoiding gluten? _____

Did you have X-rays (even dental) or CAT/PET scans? _____
